#NextGenRanger

Bigger, Tougher, Smarter

Meet our smartest, most capable,
most versatile Ranger ever.

Designed for over 180 countries, this is the bakkie
the world will turn to – for work, family and play.
Get ready to unlimit your Next-Gen Ranger life.

The Next-Gen Ranger Wildtrak

Distinctive appearance and high-end capability.
The Next-Gen Ranger Wildtrak premium interior is
stacked with technology to give you a new level of
command and control.

The Next-Gen Ranger XLT

Tough, capable, comfortable and connected.
The Next-Gen Ranger XLT has what you need
on and off-road for workdays, weekends,
whenever. (17" Wheels and Alloy Sport Bar
shown are optional extras on XLT.)

The World's Most Versatile Bakkie

The Next-Gen Ranger helps you make light work of any job with best-in-class towing, payload and engine. There's no end to its versatility either, with integrated rear box step, new Cargo Management System, a wider load box that fits 'Euro' pallets and a tailgate work bench.

Cargo management system is optional on XLT and Wildtrak. Drop in bedliner with the ability to create your own storage compartments is standard only on Wildtrak. 17" wheels shown are optional on XLT. Rear Box step is optional on XLT.

Better ways to work

Clamp pockets

Two clamp pockets on the end of the tailgate allow you to clamp timber or tools to the tailgate work bench. They're concealed by spring-loaded capping when not in use.

Wildtrak's Cargo management system

Wildtrak's tie down cleats can be configured to your specific needs, with an adjustable internal load rail on each side of the bed. Cleats slide and lock into 9 locations and are load rated to 250kg.

Fits a pallet

The Next-Gen Ranger has a wider track providing more room between the wheel arches. You can now load a standard sized "Euro" pallet (1,200mm x 800mm) in the bed.

Improved bedliner

The ribs on the floor of the moulded bedliner are now wider, offering more surface area to better grip cargo, and a more comfortable surface to kneel on.

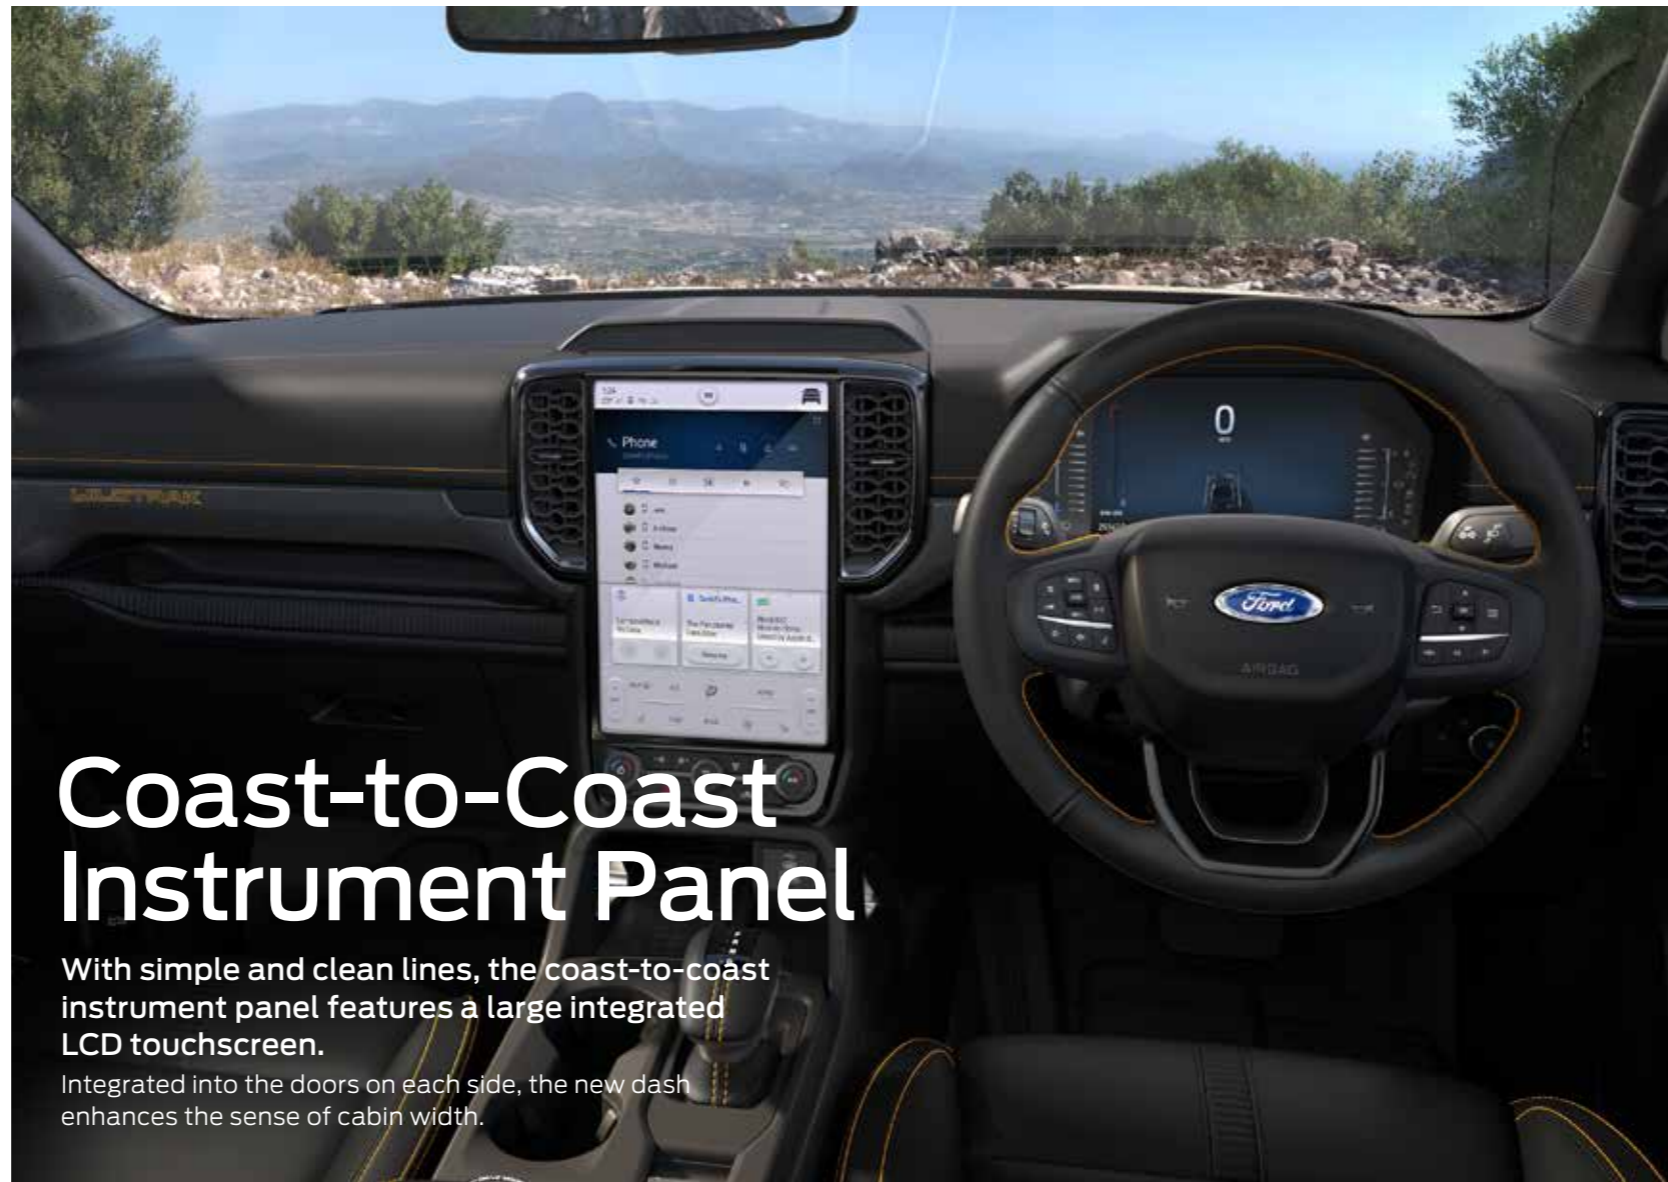

Zone lighting¹

On selected models, a network of lights including headlamps, external mirror puddle lamps and rear box lamps work together to illuminate the perimeter of the vehicle so you can work or play into the night.

Rear box step is optional on XLT and Standard on Wildtrak.

Coast-to-Coast Instrument Panel

With simple and clean lines, the coast-to-coast instrument panel features a large integrated LCD touchscreen.

Integrated into the doors on each side, the new dash enhances the sense of cabin width.

Signature interior finish

Effortless interactivity

The Next-Gen Ranger lets you experience a whole new world of connectivity, with wireless charging, wireless connection and the cloud-based SYNC® 4A² infotainment system.

SYNC® 4A²

A cloud-connected in-vehicle communication and entertainment system with a host of features, made easier by the system showing your last 5 actions, wireless smartphone integration, and a 10.1-inch or 12-inch touchscreen.

Wireless Charging Pad³

Avoid the hassle of having to plug in your phone. Simply place it on the Ranger's wireless charging pad and you're good to go.

Wireless Charging Pad

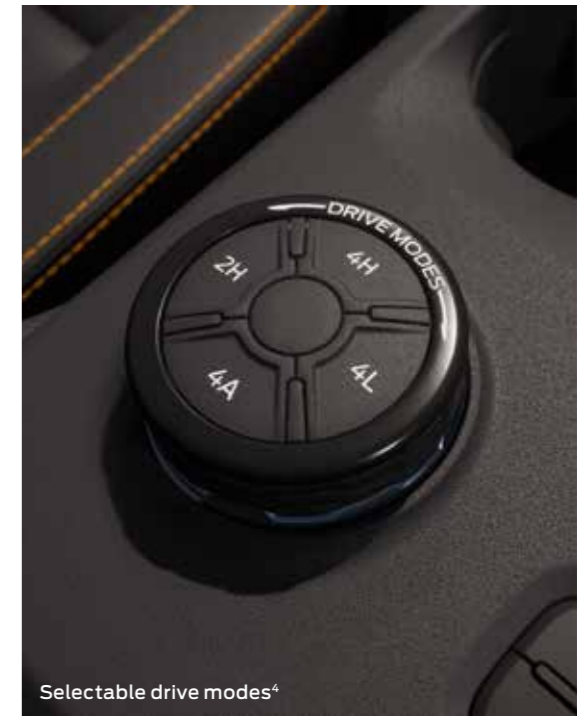

Next-Gen Power & Capability

New and upgraded engines, a range of transmission and selectable drive modes are just some of the features that make The Next-Gen Ranger the most capable bakkie on the market.

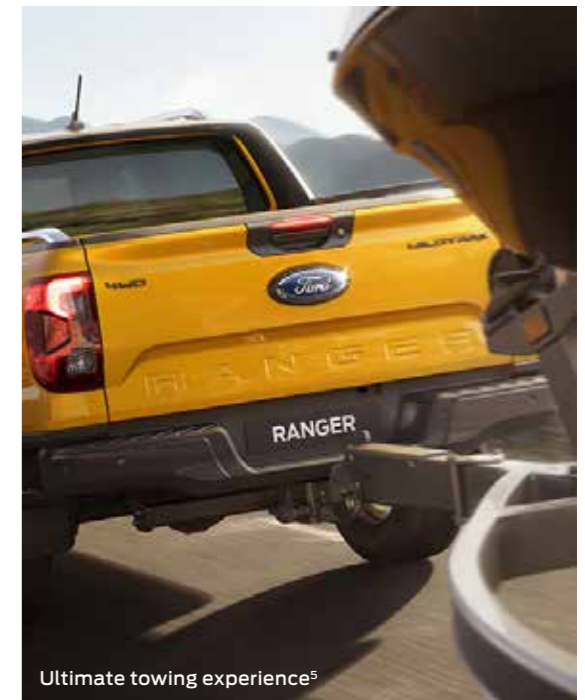

A reinforced chassis, new shock tower mounts, unique upper and lower control arms and a refined Watts link rear end allows the Next-Gen Ranger to handle punishing off-road conditions.

- 2.0L Single-Turbo with 6-speed manual & automatic
- 2.0L Bi-Turbo with 10-speed automatic

Selectable drive modes⁴

Ultimate towing experience⁵

Safety Done Smart

The Next-Gen Ranger is our safest Ranger ever.

It's packed with advanced safety features and driver assisted technologies to help protect you and those you care about, on and off the road.

Active Park Assist 2.0⁷

For times when you don't want to do it yourself, by simply holding down the Park Aid button, The Next-Gen Ranger can help steer the vehicle into position.

Blind Spot Monitoring with Cross Traffic Alert & Trailer Coverage⁸

The Next-Gen Ranger takes blind-spot-detection to the next level. BLIS[®] (Blind Spot Information System) with Trailer Coverage⁴ can alert you if a vehicle is detected in your Next-Gen Ranger's or trailer's blind spot. It's added peace of mind and makes for safer and less stressful driving.

Optional on XLT and standard on Wildtrak.

360-Degree Camera⁹

On selected models, offers a bird's-eye top-down view around your vehicle, making it easier than ever to navigate tight spaces and crowded parking lots.

Adaptive Cruise Control with Stop & Go and Lane Centering¹⁰.

On selected models, this feature allows you to maintain a preset speed and distance from the vehicle ahead. If traffic slows in front of you, the vehicle will automatically slow down and come to a stop and then return to your set cruising speed once traffic clears. Plus, Lane Centering helps keep your vehicle centered in the lane.
